EVERGREEN CEMETERY

Rules and Regulations

I.

Purchasers of lots or graves acquire simply the right and privilege of burial of the dead, of constructing vaults or tombs, and of erecting cenotaphs and other monuments and ornaments, subject to such rules and regulations as may from time to time be made for the regulation and government of said cemetery, by the board of directors of The Knapp, Stout & Co. Company, proprietors. Purchasers of lots shall provide, and at all times keep in place, corner posts, of a style to be designated by the superintendent of the cemetery, to designate the boundaries of their lots.

II.

The proprietor of each lot may erect any proper monument or index stone thereon. All structures, to insure sufficient support, must have foundations built of solid masonry, of a depth and size deemed proper by the board of directors or the superintendent, and will be built by employes of the cemetery at the expense of the owner of the lot, if desired. Trees, shrubs, flowering or other plants may be cultivated, but only such varieties as are in good taste and in keeping with the general plan of the grounds; but no tree or shrub growing within the lot may be removed or injured without the consent of the superintendent.

III.

In the erection of monuments, vaults, tombs, or other structures, a place will be designated by the superintendent for the deposit of the stone, brick and other materials, which shall not remain longer on the ground than is actually necessary for their construction, otherwise they will be removed by the superintendent at the expense of the proprietor. Workmen so employed must at all times use due care not to injure the lawn, graves etc., or in any way trespass on adjoining lots, and at times of a funeral must remain quiet.

IV.

No monument, vault, tomb, effigy, nor any structure whatever, nor any inscription thereupon shall be placed in or upon any lot which shall be determined by the said board of directors for the time being to be offensive or improper, and the said board of directors shall have the right to enter upon such lot and remove the said offensive or improper object or objects, provided, however, that if said structure or improvement shall have been made with the consent of the said board of directors for time being, the same shall not thereafter be removed, except with the consent of the owner thereof.

V.

All fences and enclosures of lots are prohibited. Proprietors who wish improvements made upon their lots can have the same done by applying to the superintendent. Unless paid for when ordered, a written application must be given, stating what is required and limiting the expense thereof, which must be paid to the superintendent upon demand. No work will be allowed to be done in the cemetery by any others than workmen employed by the Cemetery Association, except in the erection or construction of monuments, vaults, tombs, index stone, and structures of like nature. All works and improvements upon the cemetery grounds must be subject to the control and under the direction of the board of directors.

VI.

Whenever interments are to be made, at least eight hours previous notice thereof must be given to the superintendent.

VII.

Until otherwise ordered, the following prices shall be paid to the superintendent, in all cases in advance:

INTERMENTS.

For opening and closing a single grave for a person ten year of age, and over
in summer, \$2.50
in winter, 5.00

VIII.

1. No vehicle or horse may be allowed to leave the avenues or trespass upon the lots or lawn.
2. No horse may be left by the driver in the grounds, unfastened or fastened to a tree.
3. No person or party having refreshments will be permitted to come within the grounds.

8. Any person disturbing the quiet and good order of the place, by noise or other improper conduct, will be compelled to instantly leave the grounds.
